THALGO

LA BEAUTÉ MARINE

"The sea has always been a source of vital energy for humans, which can regenerate you both physically and mentally."

THALGO has taken inspiration from this for more than 60 years, combining efficacy and well-being.

Today, our Laboratory is leveraging its dual anchor points of pharmacy and the Mediterranean to infuse this marine energy, through products and treatment protocols that revitalise body and mind for luminous beauty."

Bernard Sirop
Managing Director, THALGO

Let the sea
empower
your beauty

OUR HISTORY

THE SEA, OUR PASSION

A source of vital energy for humans, the sea is able to revitalise body and mind thanks to its concentration of bioavailable minerals and trace elements.

OUR FOUNDER, A PHARMACIST

In 1964, André Bouclet, a visionary pharmacist, created THALGO, a Laboratory specialising in treatments based on algae and marine extracts. He filed a patent for the creation of MMA, 3 Micronised Marine Algae with unique revitalising properties.

OUR INSPIRATION, THE FRENCH RIVIERA

In 1972, the Laboratory was set up on the French Riviera and was inspired by its gentle lifestyle, energising light and colours to "encase" its active ingredients in sensory fragrances and textures.

OUR 4 PILLARS

OUR MARINE EXPERTISE

Our formulas combine the efficacy of marine active ingredients, from waters all over the world, rich in biodiversity, with the sensory pleasure of decadent textures.

OUR PROFESSIONAL KNOW-HOW

Our protocols combine revitalising massages and efficacy-boosting devices, while offering an exotic journey to the seaside.

OUR MARINE BEAUTY

Thanks to marine energy, capable of revitalising body and mind, you glow with a new beauty: luminous, dynamic and bright.

OUR ECO-COMMITMENTS

To offer safe and responsible beauty, we are committed to offering formulas that are even more natural than ever and protecting the sea and its biodiversity.
